6. Item:	7. Description:	8. Part Number:	9. Eligibility: *	10. Quantity:	11. Serial/Batch Number:	12. Status/Work:	
01	FLOW CONTROL VALVE	101-380013-15	N/A	1	656	OVERHAULED	
13. Remarks: Full details of work performed are stated on work order attached as referenced above. The work specified has been accomplished in accordance with Part 145 and with the current revision of the applicable technical data. Certifies that the work specified in block 12/13 was carried out in accordance with EASA Part-145 and with respect to that work the component is considered ready for release to service under EASA Part-145 Approval Number: "EASA.145.5290". Alternate Part Number : 1520T100-111 Technical Data/S.C.D. No.: 101-380013-15 Tracking Information: VALVE, S/N 656, #50188							
				19. ☒ 14 CFR 43.9 Return to Service ☒ Other regulation specified in Block 13 Certifies that unless otherwise specified in Block 13, the work identified in Block 12 and described in Block 13 was accomplished in accordance with Title 14, Code of Federal Regulations, part 43 and in respect to that work, the items are approved for return to service.			
				20. Authorized Signature: 		21. Approval/Certificate No.: OJ2R059L	
				22. Name (Typed or Printed): ANNA L. ESPARZA		23. Date (m/d/y): Sep 23 2010	
User/Installer Responsibilities							
It is important to understand that the existence of this document alone does not automatically constitute authority to install the part/component/assembly. Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts parts/components/assemblies from the airworthiness authority of the country specified in Block 1. Statements in Blocks 14 and 19 do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.
